

## **NEEDLE LACE ELEMENTS & SURFACE EMBROIDERY**

### **Supply List**

1. For the first lesson I will supply a small working mat, but will explain how this mat is made so students can make their own in the future.
2. Basic sewing kit
3. Needles, with sharp points (chenille, embroidery) and blunt tips (tapestry) in a range of sizes
4. Threads in a range of colours, but especially perle cotton #8, we will discuss threads at length during the course
5. No fabric will be required for the first class, but students should be ready to think about suitable fabric for the project.
6. Needle lace is usually done in hand or without a hoop, but a hoop may be necessary later in the course to work the background embroidery for the project.
